Comments: As a US citizen, I feel compelled to write and voice my strong interest in replacing animal testing with non-animal alternatives.

I am dismayed to learn the Interagency Coordinating Committee for the Validation of Alternative Methods (ICCVAM) has approved only one non-animal test method originating in the U.S.

It is time to support development and adoption of animal-free testing and end ineffective and inhumane research.

I support ICCVAMs immediate acceptance of internationally validated non-animal tests, and thank you for considering my voice in this issue.
